ATOMIC ENERGY COMMISSION  
WASHINGTON 25, D. C.

March 20, 1956

Dear Mr. Dulles:

Attached for your information and retention are five (5) copies of the report to the Secretary of State by the United States Delegation to the International Conference on the Peaceful Uses of Atomic Energy held at Geneva in August, 1955. The report summarizes the United States participation in the Conference including a report on each session of the Conference, prepared by the U.S. representative most directly concerned with the subject discussed. The classified supplement to the basic report presents an evaluation of Soviet capabilities as demonstrated at the Conference.

While this report was being prepared, a number of offices in the Central Intelligence Agency expressed an interest in obtaining copies. These offices were CC, OSI (for NED), and OCR (for BR and the Library). It would be appreciated if some of the attached copies could be supplied to these offices, since the total number available is limited.

Sincerely yours,

*Charles H. Reichardt*
